If you have been awarded financial aid (including scholarships) to study abroad please read the statements below and sign to affirm that you understand the conditions for disbursement, your role in ensuring your aid is disbursed on schedule, alternatives if aid cannot be disbursed when you anticipated and conditions that could affect your total aid package.

I understand that:

- I may be required to provide additional information and documentation (such as an academic calendar or expense estimate), to ensure that my aid disbursements will continue in a timely manner during my enrollment abroad.

- Certain OSU/State Scholarships (cash and waivers) require enrollment in at least 12 hours of OSU credit if the student expects to receive them while studying abroad.

- I may request deferment of certain OSU/State multi-year scholarships (cash and waivers) for the duration of my study abroad. Appropriate forms are available in the Office of Scholarships and Financial Aid must be submitted prior to departure.

- Disbursement of federal student aid cannot occur until the first day of attendance at my host institution and my enrollment is verified.

- Adjustments in my financial aid package may be increased or decreased, based on my final enrollment schedule at the host institution. It is my responsibility to request, in writing, that the Financial Aid Office review an increase in my aid package based on an increase in hours of enrollment.

- Disbursements are divided by the type of academic terms at my host institution (for example, into blocks, quarters, or semesters). Therefore, disbursements may differ from the traditional two-semester academic year.

- If I am studying abroad for more than one block, semester, or quarter, financial aid for the subsequent term cannot be disbursed until I submit an official academic record for completed coursework to the OSU Study Abroad Office. If grades are not assigned until the end of my studies abroad, I must provide a mid-point statement from an official or faculty person at my host institution confirming I am making (or made), satisfactory progress toward the completion of my program of studies. (Please refer to the "Academic Progress Report for Study Abroad" Form.)

- Financial aid for subsequent semesters will not be released until the host institution has made a report of satisfactory academic progress.

- OSU must receive an official academic record for coursework completed at the host institution before disbursement will be made to students returning to OSU within the current academic year for subsequent terms (spring or summer), or to students returning in late spring or summer, for the next academic year.

- If I do not successfully complete all coursework for which I received federal, state, or institutional funding (scholarship), I will be responsible for immediate repayment of all aid disbursed for the courses I did not complete.

- If I receive federal, state, or institutional funding while I study abroad and I do not provide OSU an official academic record from the institution of record (my host institution), nor make immediate repayment of all funds disbursed to me for my studies abroad, I will be subject to disciplinary action from OSU and must make repayment prior to my future enrollment.

Student’s Name Printed: __________________________ OSU I.D. # __________________________
